

Windergy India 2024 is Recognised as One of the Fastest Growing Shows in India.

Windergy India, the premier event in the wind energy sector, is set to return for its highly anticipated sixth edition from October 23-25, 2024, at the Chennai Trade Centre. Recently, Windergy India 2024 was recognised as the India's Fast-Growing Show at the Exhibition Excellence Awards 2024 is set to bring together the innovators, policy makers, regulators and key players in the wind energy industry. This event is hosted by Indian Wind Turbine Manufacturers Association (IWTMA) in collaboration with PDA Ventures Pvt Ltd, a Bangalore-based Trade Fair Organisers.

The upcoming event will once again combine a 3-day trade fair with a 2-day conference featuring keynote speeches, thought-provoking panel discussions, special addresses, and technology presentations by senior bureaucrats, industry leaders, academics, and subject-matter experts. This exclusive platform aims to facilitate interactions and engagements with policymakers, regulatory authorities, and domestic and international technology, solution, and service providers from the wind energy sector.

Supported by the Ministry of Power, Ministry of New and Renewable Energy and various associations and organisations including the Indian Wind Power Association, Green Hydrogen Organisation, Wind Independent Power Producer Association (WIPPA), India Energy Storage Alliance (IESA), and many other associations, the event aims to bring together wind energy professionals from India and around the world.

The Conference topic for Windergy India 2024 will be **'Wind: Powering India's Energy Transition'** and represents our commitment to driving India's journey towards a sustainable and greener future. The conference is designed with a series of informative panel discussions on policy and regulatory frameworks, market trends, financing options, and cutting-edge technological advancements acting as the catalyst for disruptor thoughts and ideas.

Windergy India 2024 will feature approximately 250 exhibitors from various sectors such as original equipment manufacturers (OEMs), component manufacturing, composites, drones, electrical components, fibre optic attenuators, filtration, gripping solutions, hydraulics, industrial automation, industrial equipment, aluminium material, coating, independent power producers (IPPs), laser projection systems, lifts, cranes, logistics, lubrication, mechanical power transmission products, offshore engineering, service providers, software, technical consultants, and media.

Windergy India will be hosting pavilions from Denmark and Spain, demonstrating their dedication to collaborating with India in advancing the wind energy sector. The trade fair will showcase exhibitors from various countries including Germany, Spain, France, the United States of America, China, Sweden, Norway, Italy, Netherlands, Switzerland, Brazil, and Japan, making Windergy India an international event.

To accommodate the growing interest and space requests from exhibitors, the organizers have added an extra hall at Windergy India 2024. The robust and indigenous supply chain of the wind energy sector will be prominently displayed at the event.

Registration to visit Windergy India 2024 is now open. Visit www.windergy.in for more information on registration, exhibition opportunities, sponsorship packages, and the event agenda.
