7th INTERNATIONAL TRADE FAIR & CONFERENCE

29-31 October 2025

Chennai Trade Centre, Chennai, India

Wind: The Energy of the Future. Witness the Force That Drives it!

The 7th edition of Windergy India 2025, the exclusive international trade fair and conference for the wind energy sector, is scheduled to take place this October from 29-31 at the Chennai Trade Centre. As India is making giant strides in the wind energy industry, the event arrives, bringing unparalleled opportunities to connect, collaborate, and shape the future of renewable energy.

The event serves as a premier business-to-business platform, uniting policymakers, regulatory authorities, international and domestic solution providers, and industry leaders from across the globe.

The Government of India has been strategically making reforms and proactively promoting the wind energy sector. The recent initiative by the GST council to reduce taxes on wind energy equipment from 12% to 5% has given a tremendous boost to the sector. The move encourages growth, affordability, and innovation in the wind energy industry, and brings the country closer to its climate and energy security goals. With positive trends and staunch support from the Government, India's target of achieving 150 GW is well within reach.

Windergy India 2025 is supported by leading government bodies and industry alliances, including the Ministry of New & Renewable Energy (MNRE), Ministry of Power (MoP), Make in India, Niti Aayog, India Energy Storage Alliance (IESA), Indian Wind Power Association (IWPA), International Solar Alliance (ISA), Skill Council for Green Jobs (SCGJ), Wind Independent Power Producer Association (WIPPA), Solar Energy Corporation of India (SECI), Composites Excellence Centre of Asia (CECA), National Institute of Wind Energy (NIWE), Hydraulics Trailer Owners Association (HTOA), Danish Wind Export, Embassy of Spain, Indo German Energy Forum (IGEF), Net-Zero Energy Transition Association (NETRA), Invest India, Indo-German Chamber of Commerce (IGCC).

Karnataka Renewable Energy Development Limited (KREDL) joins Windergy India 2025 as the official Partner State, highlighting Karnataka's leadership and commitment to advancing wind energy innovation.

The event is further strengthened by the collaboration of leading industry players. Key partners include Suzlon Energy Limited, Envision Wind Power, Senvion India, GE Vernova, Renfra Energy, Winergy, Globe Ecologistics, Exxon Mobil, Nexhs Renewables, Leap Green, UL Solutions, and Latent Landinfra. Their participation underscores the sector's collective momentum toward sustainable growth and technological advancement.

MEC Plus joins as the official Knowledge Partner, contributing valuable insights and expertise to foster dialogue, innovation, and strategic collaboration across the wind energy value chain.

Windergy India 2025 is going to be grander, with exhibitors from more than 20 countries participating and over 15,000 people anticipated to attend as visitors. The presence of pavilions representing leading wind power giants Denmark, Germany, and Spain is sure to strengthen the value of the show.

Alongside the mega trade fair, which will unveil a formidable lineup of over 350 international and national exhibitors, the event also features high-powered panel discussions and roundtables on 29 -30, presented by eminent industry professionals.

Themed Wind Power: Policies and Partnerships Towards Aatmanirbharta, Windergy India 2025 promises an insightful conference agenda designed to energise the sector and spark meaningful dialogue.

Day 1 features the Tulsi R. Tanti Memorial Lecture on “The Road to Energy Self-Sufficiency and Net Zero – The Strategic Role of Wind,” followed by a high-level Government Policy & Regulatory Panel exploring the pathway to achieving 100 GW of wind power by 2030. The State Leadership Roundtable will spotlight regional momentum in “Powering the Wind Surge,” while sessions on advancing offshore wind development and international best practices in onshore/offshore installations and operations & maintenance will offer global perspectives.

Day 2 continues the momentum with discussions on policy pathways to 100 GW, unlocking capital for wind energy assets, and enhancing supply chain and carbon-neutral export competitiveness. Additional sessions will address cost reduction strategies for raw material suppliers to wind components, culminating in “Winds of Influence,” a powerful dialogue led by women leaders redefining India’s wind sector.

Windergy India is a gateway to experience and knowledge, enabling attendees to explore the latest technologies, products, and services driving advancements in wind power while engaging in meaningful discussions to foster innovation and growth in the sector.

It is an excellent opportunity to connect, collaborate, and team up to achieve India’s net-zero goals. Visit, witness and join the pursuit to harness the power of wind and transform tomorrow.
