

## Day-1

### 'Denmark - a preferred destination for global and Asian wind companies'

Date : 23 October 2024  
Venue : Conference Hall A, Chennai Trade Centre, Chennai, India.  
Schedule : 14:00 – 15:00 hrs

Denmark is known for developing innovative & energy-efficient wind turbines, almost 40 years for onshore and 25 years for off-shore. This legacy has given rise to more than 500 companies across the wind value chain.

Leading wind energy companies, such as Vestas, Siemens Gamesa Renewable Energy, LM Wind Power, CS Wind Offshore and Cadeler, have located parts of their global production & operation in Denmark. This reflects Denmark's position as a global leader in wind energy - One of the best to develop wind technology and products. The eco-system also covers companies working in broader areas, for example, Intelligent energy systems - capable of managing the fluctuations of renewable energy, AI-based solutions for predictions, robotics and drone companies for inspection and maintenance of the turbines, among others.

### Why do these companies choose Denmark?

The combination of political focus on renewable energy, a highly educated and specialized labour force, mature eco-system across the value chain and state-of-the-art test facilities make Denmark an attractive destination to develop, manufacture, test and promote wind energy technology in Denmark.

Come join us to learn more about the Danish wind ecosystem and meet experts for some engaging conversations & insights.

**Program for the Country Session:**

Time Slot	Event	Speaker
1400-1405	Welcome address & Context Setting	Mr. Eske Bo Rosenberg, <i>Counsel General of Denmark in Bangalore</i>
1405-1410	Introduction to Invest In Denmark	Mr. Gautam Mohan, <i>Investment Manager, Invest in Denmark</i>
1410-1425	Why Global Wind companies choose Denmark?	Mr. Peder Bo Sorensen, <i>Wind Sector Specialist, Invest in Denmark</i>
1425-1435	Suzlon`s journey in Denmark	Mr. Girish Tanti, <i>Vice Chairman, Suzlon</i>
1435-1455	Open Floor for Q&A	
1455-1500	Closing Remarks	Mr. Peder Bo Sorensen, <i>Wind Sector Specialist, Invest in Denmark</i>

**Objectives:**

- How Indian Wind companies can engage with the Danish wind eco-system and leverage on the skills, technology in Denmark
- How Indian Wind Companies, both OEMs & Component manufacturers can leverage Denmark to access the European market
- Present Denmark`s offering as a global leader in the wind industry

**Who should attend:**

- If you are a blade manufacturer who is looking to access world-class knowledge and capability
- If you are a components manufacturer looking to export or find partners in Europe, for sales and assembly
- If you are an Indian wind company and looking for some of the best talent in the world
- If you are a Danish company, looking for partners in India

**Expected participants:**

- Members of Danish companies, part of the delegation from Denmark
- Senior members of Indian wind component manufacturers
- Leaders from the Indian wind industry
