

windPRO Workshop at Windergy India 2024

When: Thursday, October 24th, 2024, from 16:00-18:00

Where: Windergy India
Chennai Trade Centre, India

Registration: Please [register here](#) no later than September 25th, 2024. Please notice your registration is binding, but participation is free of charge.

Program:

16:00	Welcome and coffee
16:10	Introduction Short company presentation including an introduction to our products: windPRO and energyPRO softwares, including relevant use cases within wind, solar, storage and hybrid projects.
16:20	Green field AEP assessment with windPRO (part 1) Demonstration of how you quickly can get started using windPRO to calculate preliminary annual energy production (AEP) estimates for wind farm projects. The AEP is based on available online wind data (e.g. EMD mesoscale data, GASP etc.) providing hourly estimates.
17:00	Break
17:10	Green field AEP assessment with windPRO (part 2) This demonstration will show how to get preliminary Levelized Cost Of Energy (LCOE) numbers combining AEP estimation with cost functions.
17:25	What's new in windPRO 4.1 Aimed at existing windPRO customers, the presentation will present some of the new features and achievements in the latest version of our windPRO software.
17:35	SOLAR and WIND index services Has your wind farm or PV power plant not produced as it should despite of windy or sunny days during the past months? The explanation can easily be provided using our advanced wind or solar energy index services.
17:45-18:00	Q&A
